PROFILE

I am Mohammad Amin Moghadam, a motivated and enthusiastic Front-end Web Developer with a particular interest in React JS. I have a foundational understanding of HTML, CSS, JavaScript, Bootstrap, and React JS, which I have developed through personal projects and online courses. I thrive in dynamic and collaborative environments and am keen on continuously improving my skills. My goal is to work with a professional team where I can contribute and grow while learning new skills and participating in challenging projects.

EDUCATION

KHARAZMI UNIVERSITY
